This is a calendar of suggestions and possibilities that will help you to become more active and to stay connected to others. Aging Futures hopes that the “Stay Connected – Stay Well” campaign motivates you to take small steps to build relationships that keep you healthier and independent longer.

The benefits of being involved are:

- It will increase your mental alertness.
- It will improve your emotional well-being.
- It will maintain your network of support for a time when you may need it.
- It will help you stay physically healthier.

In addition to the ideas within the calendar, the last two pages have a great deal of information about activities for you to consider. These include exercise and volunteer opportunities, a winter indoor walking program, and a list of the senior centers.
