TCO’s main stage performances are held at The Forum Theatre in downtown Binghamton, with three major productions staged each season in the fall, winter and spring. These feature classic operas as well as operas that are not part of the standard repertory.
TCO’s second stage productions, held at the Opera Center on Clinton Street, include an annual holiday presentation of Amahl and the Night Visitors and a spring scenes program offering singers the chance to learn arias and roles from operas, thus providing the audience with the opportunity to see highlights from dozens of major operas each year. Tri-Cities Opera serves thousands throughout both New York and Pennsylvania with its three major opera productions as well as its Opera-Go-Round touring educational program, which offers age appropriate operatic productions for school children from pre-school to high school. In addition, the Resident Artist Training Program prepares aspiring singers in the discipline of opera.
Tri-Cities Opera offers both single tickets and subscription sales with discounts available for seniors, students, children and groups of ten or more. Call 729-3444.
United States Amateur Ballroom Dancers Association
USABDA was established in 1965 to promote the acceptance of ballroom dancing into the Olympic Games. Today, USABDA acts as the governing body in the U.S. for amateur ballroom dancing, seeking to promote dancing as a national, international, and Olympic Sport. USABDA also organizes educational programs about the healthful aspects of ballroom dancing, including its physical, mental and social benefits. Programs include the expansion of the ballroom dancing skills among the elderly, young people and the handicapped.
USABDA offers activities for social dancers including: classes for seniors, social dance parties open to the public, dance classes and exhibitions for local community clubs or private functions plus school activities and teacher training. Call 729-4346.

Vestal Museum
The Vestal Museum actively collects, preserves, exhibits and interprets artifacts and archives that are related to the history of the Vestal area. This is accomplished through the cooperation and support of the Vestal Historical Society and the Town of Vestal. Changing exhibits are open to the public. School and scout groups, senior centers and other groups may call to make arrangements for tours. Admission is free. The Vestal Museum is located next to the Vestal Library, which also houses records of local history and the Vestal Historian’s office. Call 748-1432.

West Side Neighborhood Association
The Association is a civic league representing the interests of the residential neighborhood bounded by the Binghamton city limits on the West, Front Street on the East, the Susquehanna River on the South, and Main Street on the North. Incorporated by the State of New York, the organization has a large number of charter members including leaders in government, education and business.
The goal is to enhance the quality of life and to re-establish the historic character of the west side as a vital component of Parlor City through neighborhood revitalization, promoting neighborhood reinvestment, comprehensive planning and zoning enforcement, code enforcement and enhancing University and community relations.
A key project of the organization is surveying the area’s historic homes and buildings and researching architectural styles. Another activity is the annual Halloween Decorating Contest in which residents are encouraged to decorate porches using natural materials. Call 723-9421.

George F. Johnson - of the Endicott/Johnson City Shoe Company - donated six carousels to the community with the stipulation that the municipalities not charge admission for a ride. Broome County has the only carousel collection of this kind in the world. Of the fewer than 170 antique carousels in the United States and Canada, six are in our very own Broome County. Because of the uniqueness of these carousels and the incomparable circumstances of their survival and existence, all of our carousels are placed on the New York State Historic Register and the National Register of Historic Places.

From 1880 into the 1930s, many Eastern Orthodox Christian Churches appeared on the Broome County landscape from northern Binghamton to western Endicott. They were built by an immigrant population who migrated to this region from Eastern Europe in the late nineteenth century to work in Triple Cities cigar and shoe factories.

In Binghamton, many settled in the First Ward, around Clinton Street. To the west, other groups settled in Endicott, joining Italian immigrants who worked for Endicott-Johnson. Most of the churches they built are centered in these two neighborhoods, with additional examples of the same style of architecture present in Johnson City and Vestal.

The interiors and other architecture on the region’s “Gold Domed” churches reflect Byzantine art styles and later influences, including Baroque and Renaissance art as well as the use of stained glass.
