4.

Review and Scan

After you have finished marking your ballot, please review to make sure it is voted the way you want. **Make sure that you check the back of the ballot for any propositions.** After you have reviewed it, the inspector will show you to the voting machine where you will scan your ballot.

If you have filled out your ballot with no errors, the voting machine will cast your ballot after it has scanned it. You will see these two screens:

5.

Overvote Warning

If you have mistakenly overvoted, meaning you have voted for more candidates than allowed, this warning will appear on the screen.

You then have two options. First, you can press the "cast" button to cast your vote as is. However, if you do that, your overvotes will not count. Second, you can press the "return" button, and your ballot will be returned to you. You will then need to go to the inspectors for a new ballot to mark and cast.

6.

Wait for this message before leaving the voting machine
