

Broome County Riverbank Clean Up

Stream Captain Checklist

The safety of the volunteers is also of the utmost importance. In addition, in order to tout how wonderful our volunteers are and to ensure that the program can continue in the future, it is important to document who is participating and how much is collected. Therefore, we would appreciate it if all stream captains carefully read over and utilize this checklist to ensure that essential information is conveyed and all requested data is documented. All forms and documents are available on our website www.gobroomecounty.com/emc/riverbankcleanup. You may wish to refer volunteers there.

For questions or concerns call us at (607) 778-2911.

PLEASE CALL 911 IN THE CASE OF AN EMERGENCY, NOT EMC STAFF.

We thank you for your participation and cooperation. This program would not be successful without the hard work and dedication of all of the volunteers, especially the stream captains. We are excited to work with you for another fun and safe event.

Before the Clean Up

- 1. Register online.
- 2. Attend Stream Captains mandatory meeting with EMC Riverbank Committee.
- 3. Confirm receipt of all important documents in your Stream Captains folder. This includes sign in sheets, data cards and collection information, liability releases, safety information and aerial photographs of the site. These can also be downloaded and printed at <https://www.gobroomecounty.com/emc/riverbankcleanup>.
- 4. Pick up supplies from county offices.

On the Day of the Clean Up

- 5. Make sure to document the number of volunteers.
- 6. Collect **SIGNED** liability waivers. Each volunteer **MUST** sign a waiver **BEFORE** participating. Children under 18 must have a parent/guardian sign their waiver. (Can also be done prior to the day of the event)
- 7. Make sure your group has reviewed the provided safety tips before beginning. Discuss your emergency plan.
- 8. Review aerial photographs with the team. Show your team location(s) where trash will be piled for pickup. Please instruct your group to separate tires and large scrap metal from bagged trash when placing debris for pickup.
- 9. Distribute data cards to volunteers. You can have one person recording information for several volunteers collecting debris. The debris categories on the data cards were developed to track certain materials of concern. Fill this out to the best of your ability (however the more general weight estimate is more important).
- 10. Distribute bags and gloves. Be aware of any allergies.

After the Clean Up

- 11. Collect **ALL DATA CARDS**, assemble and tally final results.
- 12. Submit all compiled data to the EMC by **two weeks after the clean up day**. You can do this by filling out the form on the EMC's website.

Any forms dropped off or sent by mail should go to the Broome County Environmental Management Council, Broome County Office Building, PO Box 1766, Binghamton, NY 13902.
