BROOME COUNTY DEPARTMENT OF AUDIT AND CONTROL

PAY EQUITY STUDY

September 2006

Alex J. McLaughlin, Comptroller

September 6, 2006

Barbara J. Fiala, County Executive:

Enclosed, are tables summarizing the results of our comparison of Broome County's compensation package with those of peer New York State Counties for CSEA and BAPA positions.

The Counties that we identified as peers were: Niagara; Oneida; Rensselaer and Ulster.

We considered and calculated a value for all elements of each County's compensation package, except for retirement benefits, which were the same for all Counties in our study and, therefore, not differential.

The categories of compensation considered and the methodology for valuing each category were as follows:

Base Pay – Entry level, starting or Step "0" as per printed schedule for 2006 (2005 for BAPA).

Max Pay – Top achievable pay rate plus top achievable longevity pay (if any).

Vacation Pay Min and Max – (1) 260th of salary for every day allowed. Min value was added to Base Pay value, Max value was added to Max Pay value.

Holiday Pay $-(1) 260^{\text{th}}$ of salary for every day allowed, including Floating and regular holidays.

Sick $Pay - (1) 260^{th}$ of salary for every day allowed. If days allowed vary with length of service, we added minimum award to base and maximum award to max.

Disability Insurance – We added employer's share of premium to total compensation and deducted employee share of premium from total compensation.

Life Insurance – We added employer's share of premium to total compensation and deducted employee's share of premium from total compensation.

Health Insurance – We added employer's share of premium (for primary plan) to total compensation and deducted employee share of premium from total compensation. We used premium cost and percent share data as pertains to Family coverage. We ensured that the menu of benefits provided under primary health plans among all counties were similar. We identified any discrepancies and adjusted for value. (e.g.: If some counties offered dental coverage or eye care coverage as part of their primary health plan, with no additional cost sharing, and other counties did not, an adjustment was made.)

Other Insurance – We added the employer's share of the premium for any supplemental health, medical, dental or vision care insurance provided by any county to total compensation and deducted any employee share in premium expense from total compensation.

We executed this compensation valuation methodology for every one of Broome County's CSEA and BAPA positions and for every identified comparable position in each peer county. We then combined the values for the peer counties to produce a peer county average. This peer county average value is what Broome's compensation package is compared to in the enclosed tables.

It should be noted that peer county salaries are based on a 35 hour work week. Broome's salaries are based on a 37.5/40 hour work week.

We were careful to ensure that all positions were matched with and compared to positions that were truly comparable. Accordingly, we looked at descriptions of typical duties and required minimum qualifications to ensure that positions were a match. We were not able to find a match for all titles. Titles for which no match was available are described as such in the accompanying tables.

Sincerely,

Alex J. McLaughlin Comptroller
