LONG TERM CARE FACILITIES

INTERESTED IN A LONG TERM CARE FACILITY?

There are many different levels of care available in long term care facilities based on the needs of the person looking for a facility, below are descriptions of the different levels of care and on the back of this form are the different long term care facilities in Broome County.

Independent Living: Affiliated with long-term care facilities, these apartments are available for well elderly and are handicap accessible. Safety devices are frequently provided – such as grab bars, emergency call bells. Residents care for themselves and the apartment.

Adult Care Facilities: This level of care is intended for people who need 24-hour supervision. These facilities offer long-term, supportive residential care, including a private or semi-private room, all meals and snacks, housekeeping, laundry, assistance with self-administration of medications, personal care assistance, case management services, and structured activities. Adult Care may be paid for privately or in some cases by Social Security Income (SSI).

Enriched Housing Program: Provides long-term residential care to adults, including an individual apartment, some meals, housekeeping, laundry, some supervision, assistance with self-administration of medications, personal care assistance, case management services, and structure activity programs.

Assisted Living Residence: Specifically designed by law as an entity that provides or arranges for housing, onsite

monitoring, and personal care and/or home care services in a home-like setting for five or more adults. Daily food services, 24-hour onsite monitoring, case management services, and the development of an individualized service plan for each resident are included. Residents must be continent or able to manage incontinence independently. Must be able to walk and transfer out of bed or a chair independently.

Assisted Living Program: This program is an alternative to nursing home care, allowing individuals that would otherwise relocate to a nursing home to instead receive home care services in an Adult Care Facility or Enriched Housing Program. This is a Medicaid-certified program with a limited number of Medicaid beds available in each region. Resident must be continent or able to manage incontinence independently, must be able to walk independently, cannot be receiving hospice care and can keep their own Primary Care doctor.

Enhanced Assisted Living Residence: This long-term care option offers more specialized services and more intense supervision than are available in Adult Care Facilities, Enriched Housing Programs, and Assisted Living Residences. Individuals may receive assistance with management of incontinence, walking, or transferring. Hospice services can be provided in this setting.

Special Needs Assisted Living Residence: This certification allows Assisted Living Residences to offer more specialized services and more intense supervision to individuals with advanced stages of Alzheimer's and dementia. With the tendency to wander, less ability to

receive direction, and requiring more frequent cueing and one-on-one assistance, people with Alzheimer's or dementia can be kept safe and healthy in this long-term care setting.

Skilled Nursing Facility: These facilities provide 24-hour medical care. A variety of professional and licensed staff assures that each person's needs are met. Care is planned using input from residents, family, physicians, and facility staff. Care can be provided on a long-term or short-term basis, depending on the client's needs.

Dementia Units: Units are tailored to residents with memory-related problems including Alzheimer's and dementia. These units offer specialized programming, staffing patterns, and safety features.

Rehabilitation Units: Units are tailored to residents with short-term rehabilitation needs. The goal is to help a person return to her/his level of functioning prior to an illness, injury, or surgery. The type of care and length of stay are tailored to the person's individual needs. Medicare may pay for this type of care for up to 100 days.

Respite Care: Provides temporary supportive care in a nursing or adult care facility for those who normally live in the community, but whose caregivers need temporary relief. For more information on respite care options, contact **Broome County NY Connects at (607) 778-2278 or toll-free at 1-800-342-9871.**
